Restaurant construction. Commercial kitchen systems.

Company profile for general contractors, restaurant owners and equipment suppliers.

Restaurant interior from the APEX project collection.

WHAT WE HANDLE

Complete restaurant renovations and commercial kitchen packages across the GTA. APEX brings construction, kitchen equipment and building services into one coordinated scope.

Restaurant construction
Dining and service areas, interior finishes, bar fit-outs and coordinated trade work.

Commercial kitchen systems
Equipment installation, hoods and ventilation, fire-suppression coordination and utility connections.

Engineering and permits
Design and permit coordination with the appropriate professionals and specialist trades. Responsibilities are defined for each project.

Estimating and project delivery
Sam reviews estimates with estimator support. Send the site address, drawings and equipment schedule for a scope review.

Selected APEX work

Real photographs from the existing APEX website and project collection.

Bolton restaurant

Shawarma restaurant fit-out with a glazed service counter, cooking area, tiled floor and ceiling finishes. APEX archive photographs dated May and June 2019.

7887 Weston Road kitchen

Commercial cooking line with range, fryers, overhead exhaust hood and adjacent wash-up area. Identified in the APEX archive; photograph dated September 2019.

Bar and service area

An APEX bar interior with a service counter, illuminated bottle display, pendant lighting and seating.

For a similar project, share the drawings, equipment list, site conditions and required scope. We can review a kitchen package or the full restaurant renovation.
